

# 60361-L

## Large Multi-User Test Station

ACTALL HUBSENS™ SOFTWARE

The 60361-L Large Multi-User Test Station is a workstation with a 49 inch display and a NUC Mini PC. The screen on the user interface allows for up to 25 users to test simultaneously, prompted by their proximity to the station as measured by a Locator positioned nearby. Users are able to test the RF radio and battery of ACTALL ATLAS™ tags.

### FEATURES & BENEFITS

- ✓ Installed as a dedicated screen through the PrismUI software
- ✓ Required connections added and tested by Actall or installer
- ✓ Operates as a kiosk for users to test their tags' radio and battery
- ✓ Operating configuration set through PrismUI software
